MORE SAFETY, MORE COMFORT, MORE TRIPS, MORE PROFITS.

Mahindra BLAZO X is one of the most comfortable truck in India. It's built with the knowledge that drivers are the actual wheels of Indian transport and they spend half their lives inside the cabin. Which is why this truck comes with a host of features to make every drive more safe and comfortable. Like the 4-point suspended cabin that truly enhances driving comfort. And the controls that are ergonomically located to reduce effort inside the cabin.

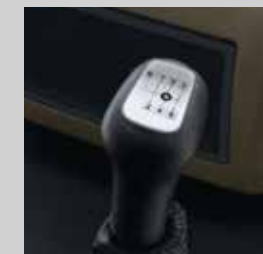

TILT & TELESCOPIC STEERING

The tilt & telescopic steering allows drivers to adjust the steering to their convenience. A wide windshield and large rear view mirrors provide greater visibility. And the anti-lock braking system ensures greater braking control even at higher speeds. In other words, this is a truck built for safe, fatigue-free driving which means fewer stoppages by drivers, more distance covered in less time and improved turnaround time.

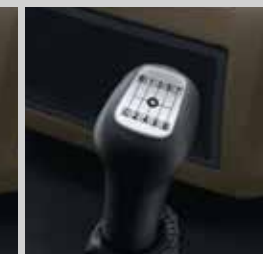

DRIVER INFORMATION SYSTEM

The new Mahindra BLAZO X range also comes with a car-like Driver Information System (DIS) that gives critical vehicle information to the driver in real-time. Apart from the engine RPM, temperature, speed and fuel levels, it has brake pressure, trip kilometre, diesel consumption per kilometre, battery voltage, service reminders and other important details.
